## What is coming up?

Our club AGM is on Friday 26 June starting at 6pm in our club function hall.

Bar will be open from 5pm.

If you would like a nomination form for a position for the 2015/16 season please email Jess on [Jessica.Bunford@scarboro.com.au](mailto:Jessica.Bunford@scarboro.com.au)

Remember these need to be in 5 days before the AGM.

Have a great week Scarboro members!

# From the Vice President

Thanks to the IRB team for setting up a boat for Polar Bears last Sunday. We couldn't make driver Layne Ward come in after the 'B' graders for his own swim in the 'A' grade because he was having so much fun, comparing the handling of the boat to a Ferrari rather than the Kingswoods he's been used to. There's an expectation now the Polar Bears will have the newest and best boat available every Sunday.

On IRB racing, seems members of the team are like I was when I played amateur football, just able to recover from the aches and bruises from one weekend before I went and did it all again on the next. There's certainly some awesome photos doing the rounds on Facebook of the racing last weekend at Trigg. Speaking of which we're hosting the IRB State Titles on the weekend of the 27<sup>th</sup>/28<sup>th</sup> of June after Friday's AGM so we'll need some people to help with setting up the arena and general tasks. If we're lucky enough to have some clean conditions with a bit of a wave it'll make exciting watching too.

# IRB Racing

Domination: This is the only word capable of describing what the IRB team achieved at Trigg beach.

We were welcomed to the beach with a sizeable wave that sent shivers up the spines of the flat water cousins. It's a good thing waves are treated as ramps in 6019 because everyone was dealt out some serious hang time. Simon (Ghost rider) and Volker called Tower to request a Fly-by, thankfully it was granted as it was magically to see.

Our family has some special members that sometimes get confused about their roles. For example Scott decided driving wasn't for him, so to shore he swam after using the boat as a trampoline, leaving The Punisher victimless for the morning. Hannah was also confused, she found herself diving into the water being a tube swimmer. Although it is well out of her comfort zone she stepped to the challenge and got the win.

Emily decided that an extra category needed to be added the racing rules, the Vertical Challenge. This involves finding a thick wave that's about the break then slamming the boat through the lip. She nailed this in spectacular fashion twice, achieving a near perfect 83°/90° on average score.

While it seems IRB racing is all about having a great time and reaching orbit we do actually race. Scarboroughs effort at Trigg was nothing short of spectacular, taking out 6 of the 8 Finals. When we weren't winning we spoiled the spectators with multiple low altitude fly overs. We even had a crew invent a new method of punching waves, safe to say duck-diving an IRB isn't a recommended technique. No matter how amazing it looked popping out the back of the wave.

Kook of the carnival: Thomas Howie. He specializes in brain explosions and having a strong exit strategy, just to test his crew's ability to think quickly.....

Secret training is being held at the club bar from 6pm Friday. Anyone who is interested in IRB racing is invited to join in this important ritual

Special thanks this week to Mic Nielson for stepping into the Team manages role. That was a huge responsibility that you handled brilliantly

Next carnival is at Freo on the 14<sup>th</sup>. Looking forward to seeing you all there!!!
